INX 2-Piece Metal Color Catalog

The industry's first and only true color standard for beverage can design.

Accurate Color • Improved Communication • Reduced Lead Times

The INX 2-Piece Metal Color Catalog is a collection of over 650⁺ metal color swatches—which more accurately represent the finished metal print—helping brand owners, designers, and metal decorators select, communicate, and approve color efficiently, reducing lead times—getting your cans to market faster.

Features

The INX 2-Piece Metal Color Catalog is the only advanced color communication tool you need for accurate metal decorating.

- Proprietary INX numbering system of 650⁺ removable metal color swatches
- Corresponding digital library plugin available for use in today's design programs
- Support documentation and access to technical support

Benefits

Designing for metal decorating requires true representation, and print on paper just doesn't cut it. Now with the INX 2-Piece Color Catalog, INX has raised the standards.

- Fast and accurate color selection
- Cost-effective approach to color management
- Improved color communication
- Lower applied finished costs
- Reduced lead times
